Dated 19.10.2015

All Governors & Lt. Governors

His/her Excellency,

I would like to inform you that Vaishwik Kshatriya Mahasabha is a registered organization (Regn. No.S/1513/Dist South/2013) and is one of the major organization running various welfare activities. Our main activities include spreading education, upliftment of poor, providing medical facilities to the poor, organizing cultural events, art exhibitions, musical and literary programs. I wish to raise some issue to your goodself.

In the Constitution, every citizen has the right to equality, for that reason SC/ST and OBC classes have been provided with reservation in services and education. But I would like to draw your kind attention that in these categories, the benefits of these reservations is not reaching to the poor or to the medium economically weaker categories, but only the rich people of these reservations categories are getting the reservation facilities, which is unjustified. And I would also add that in the General category also there is strong need to help people who are living below poverty so that they can also receive equal opportunities in the light of their right to equality as mentioned in the Constitution of India under Article 14.

His/Her Excellency, I humbly pray to your goodself that right of reservation for people of all classes must harmonize for all those who come under poverty line and not on the basis of caste or creed. I hope His/Her Excellency will sympathetically consider my request.

With warm regards,

Yours faithfully

Baldev Singh Pal  
President
